

# Media Converter

The media converters allow you to transform electrical or optical signals of a certain standard to another.

RS232 to RS485/422

MCV1

Fiber Optics to Ethernet

MCV1-FO-ETH

Fiber Optics to Serial

MCV1-FO-SER

## Media Converter

RS232 ↔ RS485/455

Fiber Optics ↔ RS232

Fiber Optics ↔ Ethernet

### Media Converter benefits:

- Extend local communications over long distances.
- Avoid electrical noise interference during communication.
- Can connect devices to each other, with different communication standards.
